Fontaine Fifth Wheel and Fontaine Parts Connection Announce New Family of Fifth Wheels

Trussville, Ala. (Oct. 15, 2009) – At a media event today, Fontaine Fifth Wheel and its aftermarket parts group, Fontaine Parts Connection, unveiled a new family of fifth wheels. The Fontaine® Ultra line of fifth wheels initially will include four new models, with additional products planned.

“We have worked very closely with our customers to develop new fifth wheels that meet their increasing requirements for strength, durability, reliability and safety,” explains Henry Bell, president of Fontaine Fifth Wheel. “In doing so, our R&D team has also found new ways to make these products lighter, more convenient and lower maintenance than other fifth wheels. They truly do go beyond the ordinary.”

The Fontaine Ultra family of fifth wheels includes:

- The Fontaine® Ultra NS, the only fifth wheel to offer infinite, automatic slack adjustment.
- The Fontaine® Ultra LT, the lightest-weight fifth wheel slider system available.
- The Fontaine® Ultra HD, a lighter-weight, heavy-duty fifth wheel for severe service applications.
- The Fontaine Ultra® HR, a direct replacement for competitive standard-duty fifth wheel top plates.

New Headquarters

Today’s media event took place at the companies’ new Trussville, Ala., headquarters. The state-of-the-art building encompasses 50,000 square feet, including office space for Fontaine Fifth Wheel and Parts Connection, distribution centers for both businesses and Fontaine’s industry-leading research and development lab.
